Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2022.

Item 1.01 – Conflict Minerals Disclosure

Company Overview

Optical Cable Corporation (or OCC®) manufactures a broad range of fiber optic and copper data communication cabling and connectivity solutions. OCC's products include fiber optic and copper cabling, fiber optic and copper connectors, specialty fiber optic and copper connectors, fiber optic and copper patch cords, pre-terminated fiber optic and copper cable assemblies, racks, cabinets, datacom enclosures, patch panels, face plates, multi-media boxes, and other cable and connectivity management accessories.

Conflict Minerals Disclosure

Section 1502(e)(4) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (“the Act”) defines conflict minerals as columbite-tantalite (tantalum), cassiterite (tin), wolframite (tungsten) and gold, commonly referred to collectively as “3TG”. OCC evaluated its current product lines and determined that certain manufactured products contain 3TG.

Certain of the 3TG minerals are contained in some of the wire and metal components used by OCC in the connector manufacturing process. On a more limited basis, OCC uses certain 3TG minerals in the production of products in its fiber optic cable product lines.

OCC does not make direct purchases of raw ore or unrefined minerals or any direct purchases from recycled or scrap sources, and makes no direct purchases in the Democratic Republic of the Congo (“DRC”) or its adjoining countries. OCC has conducted a country of origin inquiry in good faith by identifying suppliers of the parts used in OCC products that are likely to contain 3TG and requesting that suppliers respond with a completed Conflict-Free Sourcing Initiative (“CFSI”) Conflict Minerals Reporting Template. This template facilitates disclosure and communication of information regarding the origin of conflict minerals, smelters that provide material to a company’s supply chain, and supplier due diligence.

OCC’s due diligence measures included:

- Conducting a supply chain survey with all suppliers of components that contain 3TG using the CFSI Conflict Minerals Reporting Template.
- Tracking and reviewing responses to assess reliability.
- Following up with suppliers who failed to return responses or returned incomplete or inconsistent responses. OCC received valid responses from 36 of 39 surveyed suppliers.
- Reviewing the smelters and refiners identified in the supply chain survey to determine location and certification of “conflict free” status.

Slightly less than half of the suppliers who responded to the survey (47%) reported that the 3TG minerals in the parts they sell to OCC did not originate in the DRC or adjoining countries. However, the remaining suppliers reported that the minerals contained in their products may have originated in the DRC or adjoining countries, or were unable to specify the origin of the minerals. Please see the attached Conflict Minerals Report (Exhibit 1.01). Based on the information received, OCC does not have sufficient information to determine whether the necessary 3TG minerals contained in our products directly or indirectly financed or benefited armed groups in the DRC or its adjoining countries.

A copy of OCC’s conflict minerals disclosure herein is publicly available at: www.occfiber.com under “Investor Relations”.

Item 1.02 Exhibit

The Conflict Minerals Report required by Item 1.01 is filed as [Exhibit 1.01](#) to this Form SD.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the duly authorized undersigned.

OPTICAL CABLE CORPORATION

By: /s/ Tracy G. Smith
Name: Tracy G. Smith
Title: Senior Vice President and Chief Financial Officer

Dated: May 19, 2023

Exhibit 1.01

CONFLICT MINERALS REPORT

Optical Cable Corporation (or OCC®) has performed the following due diligence measures to determine whether the 3TG minerals included in our products financed or benefited armed groups in the Democratic Republic of the Congo (“DRC”) or its adjoining countries:

Step 1. Establish Strong Company Management Systems

Control Systems

OCC engages in industry-wide initiatives to enhance supply chain responsibility and to keep abreast of industry best practices. OCC conducted a supply chain survey with all suppliers of components that contain 3TG minerals using the Conflict-Free Sourcing Initiative (“CFSI”) Conflict Minerals Reporting Template. OCC then reviewed the results of the supply chain survey and retained documentation relevant to the use of any 3TG minerals.

Supplier Engagement

OCC has a strong level of engagement with its direct suppliers and, when necessary, directly engages their upstream suppliers. OCC expects our suppliers to practice responsible sourcing and to cooperate with OCC’s conflict minerals reporting and due diligence efforts. OCC reviewed the smelters and refiners identified in the supply chain survey to determine location and certification of “conflict free” status.

Step 2. Identify and Assess Risks in the Supply Chain

OCC engages with its direct suppliers and, when necessary, their upstream suppliers to evaluate the source of 3TG minerals in its products. Upon receiving a supplier CFSI Reporting Template, members of the OCC conflict minerals diligence team review the information for consistency and accuracy. When a report warrants clarification or confirmation, a member of the OCC conflict minerals diligence team contacts the direct supplier, or in some cases their upstream supplier, to clarify or confirm the information and responses.

Step 3. Design and Implement a Strategy to Respond to Identified Risks

OCC performs a risk assessment to identify areas of possible concern within its supply chain, evaluating areas of possible concern and deploying appropriate risk mitigation controls and strategies.

OCC continues to look for ways to enhance its conflict minerals compliance program, including the processes outlined above. In addition, OCC intends to continue collaborating with its suppliers to promote responsible sourcing of conflict minerals. To accomplish this objective, OCC will continue outreach and education efforts among its suppliers to promote industry best practices.

One area for further mitigating risk in OCC’s supply chain is to identify the countries of origin of all 3TG minerals in its products. Several of OCC’s suppliers routinely provide responses at a supplier-wide level, and not specifically with respect to the component materials that these suppliers supplied to OCC. We have improved our risk assessment by requesting that all CFSI Reporting Templates be completed at the product level and by providing a list of relevant products purchased from each supplier to aid in completion.

Step 4. Carry Out Independent Third-Party Audit of Smelter/Refiner's Due Diligence Practices

If necessary, and to the extent OCC could reasonably do so, OCC would provide information requested in connection with audits of conflict minerals smelters and refiners conducted by third parties.

Step 5. Report Annually on Supply Chain Due Diligence

This report constitutes OCC's annual report on its conflict minerals due diligence and is publicly available on the Company's website. The information contained in, and that can be accessed through, the website of the Company is not, and shall not be deemed to be, a part of this report or the related Form SD or incorporated into any other filings Optical Cable Corporation makes with the SEC.

The following table is a list of smelters, provided to OCC by its suppliers, of 3TG minerals used to manufacture OCC's products that may have been sourced from the DRC or its adjoining countries.

After exercising due diligence, OCC was unable to determine whether the 3TG minerals that may have been sourced from the DRC or its adjoining countries were from recycled or scrap sources or whether such minerals directly or indirectly financed or benefited armed groups. To improve its ability to conduct due diligence, OCC will continue to request completed CFSI Reporting Templates from its suppliers and to emphasize its support of the reporting requirements.
